PROFILE

Builds working, technically substantial AI systems for real-world utility, at the intersection of AI reasoning systems, computer vision, robotics, and forward deployed engineering. Prioritizes raw data extraction, context management, and hybrid retrieval over generic cloud wrappers.

TECHNICAL EXPERTISE

Forward Deployed Engineering	Designing and deploying intelligent systems that prioritize complex reasoning and real-world utility.
Computer Vision & Image Processing	Byte-level, OpenCV-style pipelines for data extraction without generic cloud vision APIs.
AI & LLMs	RAG, custom LLM integration, embedding pipelines, and autonomous systems that execute multi-step tasks.
Full-Stack Integration	Scalable platforms in React, Next.js, and Node.js; lightweight AI widgets embedded into existing infrastructure.

SELECTED WORK

Tile Extractor

1,500+ GitHub clones in 6 days

PDF PARSING | UTILITY

Heavy-duty utility for lossless extraction of high-quality images directly from large PDF catalogues. Built on byte-level extraction rather than cloud APIs to automate large-scale asset recovery with performance and precision.

[OPEN TILE EXTRACTOR](#) [FRAMEWORK](#)

Kiwi AI

RAG | SAAS | LIVE

Chatbot builder that turns documents and website links into a custom AI assistant. Embeds anywhere with a single line of code, powered by hybrid retrieval and context management.

[OPEN KIWI AI](#) [PROOF](#)

Solara

ENGINEERING | PLATFORM | OFFLINE

Solar planning platform that computes electrical loads, packs rooftop layouts, and simulates seasonal irradiation. Generates high-fidelity vector engineering blueprints entirely in-browser with zero server latency.

[OPEN SOLARA](#)

Cinehaul

NEXT.JS | PLATFORM | LIVE

Community-driven platform for discovering, rating, and tracking movies and TV series. Users curate personal collections and earn reputation badges within a dedicated cinema community.

Ananta Memory

EXTENSION | OFFLINE | PRIVACY

Privacy-first browser extension that saves everything you read into a fully offline, local database. Instant search of reading history with zero cloud dependency, built for absolute data ownership.

[OPEN ANANTA MEMORY](#) [PROOF](#)

SvaraTV

STREAMING | ANDROID / WINDOWS | LIVE

Ad-free streaming application bringing thousands of global live TV channels and sports to Windows and Android through a sleek, subscription-free interface.
